

Checklist for Scorers

Before the game:

- The scoresheet should be on the clipboard at the court. If not — this is likely to be the first game of the day — collect from the office
- Fill in the names of each team member playing. You can find a list of names in the blue folder in the coach's kit bag. This does not need to be in any specific order as the players are rotated
- Ensure the team manager has asked the umpires or opposition to select two players for best and fairest votes
- Speak with opposing team scorer to determine who will score/how the scoring will be shared. It is mandatory — even if you are the shadow scorer — to stand with the other scorer at all times

During the game:

- Record goals on scoresheet
- Any new player for players 'playing up' from a lower grade for the day must have their name, regular team and section recorded on the bottom of the sheet
- If an injury occurs, mark details on the score sheet — at the bottom or the back

After the game:

- Make sure the umpires, captains and scorers sign the scoresheet. It is general practice if you are the scorer, your daughter will sign as the team captain for that game
- Ensure the team manager has obtained the best player selections from the umpires or opposition and the envelope is placed in the KHNC box at the office
- Make sure the scoresheet is taken to the office
